DETAILED ACTION

Allowable Subject Matter

Claims 15-28 are allowed.

The following is an examiner's statement of reasons for allowance:

With regards to claim 15, applicant's persuasive arguments presented overcome the rejections to the claims as well as the amendments to more clearly define the invention, namely that the closest prior art, Rotolante, fails to teach a first and a second non-cooled detector detecting two different range of wavelengths. In contrast, Rotolante only teaches two detectors detecting the same wavelength range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
